

Math

Use KidPix or another drawing program to create an illustration of a unit fraction. Try to think of examples that can be found in real life.

(Example: One egg is $\frac{1}{12}$ of a carton of eggs)

Social Studies

Imagine that you could take a trip to any country you choose. Where would you go? Go to the website <http://www.odci.gov/cia/publications/factbook/index.html> and answer these questions about the country you select:

1. Where is its capital?
2. What is the population?
3. What is the average temperature in July?

Writing

Use a word processor to write a letter to your parents describing your favorite subject. Make sure to give at least two examples as to why you picked this subject.

Science

Use KidPix or another drawing program to show the parts of a plant:

- Roots
- Stem
- Leaves

Make sure to label each part!
